

# Spencer Smith

## EXPERIENCE

### **Front-End Engineer** - SoFi

Jun 2018 - Present

- Worked heavily with the Quovo API allowing users to connect their bank account from within the React web app for fund distribution.

### **Front-End Developer** - Jolt

Jan 2018 - May 2018

- Contributed to a client-side JavaScript library that generated PNG images for printable labels.
- Responsible for re-writing and adding various new features to a drag-and-drop label builder using React and Redux.

### **Full-Stack Developer** - Effortless Reviews

Feb 2017 - July 2018

- Designed and implemented four separate React apps including a user/admin dashboard, public facing pages, login and signup forms, and mobile-focused landing pages for collecting customer reviews.
- Created an automated web scraper that periodically scrapes new online reviews for each user location.
- Created a backend API (Node.js and Express) for interacting with a MySQL database including logic for user management and permissions.

### **Software Development Intern** - LDS Church

May 2017 - Aug 2017

- Contributed to a system that allowed users to save custom searches to their account.

### **Web Developer, Graphic Artist** - EGI

Mar 2015 - Feb 2017

- Created a web app that scraped company webpages and PDFs to find data inconsistencies.
- Wrote a number scripts for InDesign to automate the publishing process for the marketing team.

- Maintained and updated Wordpress websites for two research organizations within the company.
